COURSE PRESENTERS

Mike Campden
Smallpeice course presenter modules 2 & 3

Background: Prior to joining Smallpeice in April '98, Mike spent over 15 years in the manufacture of capital plant for the process industries. His experience has been in the engineering and manufacturing to order type of operation. He has extensive international experience visiting over 20 countries to promote and manage engineering projects. He has had a number of managerial positions, having been responsible for operations, engineering, design, quality and I.T. Mike's formal qualifications include a BSc (Hons) in Minerals Engineering from Birmingham University, a Diploma in Psychology and a MBA.

Training Experience: While in industry, Mike took a particular interest in the aspects of training for product design, safety, operator training and quality awareness. He has specialised in training where the first language of the audience has not been English. At Smallpeice he is responsible for presenting design and project and Six Sigma based courses.

Sean McNulty
Innovator course presenter module 1

Sean has over 26 years experience in Industrial Design, Innovation Management and Training. He graduated from NCAD Dublin in 1980 in Industrial Design and worked for a number of years in the United States. He established Dolmen in 1991 a leading edge New Product Development consultancy and in 2000 with a wealth of experience and a highly skilled team, Sean created Innovator.

Innovator is a Consultancy that facilitates companies in the area of Innovation & Design Management and New Product Development Training. Innovator provides the knowledge and a skill tool necessary to enable first time performers and SME's to establish their Innovation & Design activities.

Additional Training by Sean:

- Champions of Innovation: Attended a series of best practice workshops.
- Design Management Institute USA: Brand & Marketing Strategies for New Product Development.
- Sean McNulty is an approved New Product Development Professional. The only internationally recognised NPD qualification, awarded 2004 by the Product Development Management Association (PDMA, USA).
- Sean McNulty is Managing Director of Dolmen. A leading edge New Product Development consultancy, a New Product Development resource. Established 1996.
- Sean is a member and past President of the Institute of Designers in Ireland (IDI).
- Innovator/Dolmen has won various National and International Design awards for developing innovative products. Certificates of design excellence have been awarded by the following design organisations:
 - Brunell award (USA)
 - IF Design awards (Germany) 2005 and 2006
 - ICAD awards (Ireland)
 - Reddot design award (Germany) 2005.
